	)	

Pursuant to the Northern District of California "Protocol for Searching Devices or Media that Store Data Electronically" the Government has endeavored to complete an off-site search of the evidence seized in the above entitled search warrant. The Government has been unable to complete the search with the thirty (30) day period following July 5, 2007, the original search warrant execution date. Therefore, the Government applies for this extension from the Court.

The forensic laboratory has made all reasonable efforts to complete its search of the evidence seized. However, due to the volume of evidence seized - nine hard drives, three computers, 149 compact disks, and two DVDs - the laboratory has been unable to complete its search of all of the

1 devices and media seized from the premise. The forensic laboratory will continue its efforts to  
2 appropriately search the evidence seized in accordance with the "Protocol for Searching Devices  
3 or Media that Store Data Electronically" and anticipates that this can be accomplished within the  
4 next thirty days.

5 The Government, therefore, submits this application for a thirty day extension to complete  
6 the execution of the above captioned search warrant.

7 DATED: AUGUST 3, 2007
